New Items:

**Weather News:** Today is forecasted to be extremely hot and humid, everyone needs to drink more water and not to skip meals. Skipping a meal not only deprives your body of needed nutrients for growth and full physical and mental functioning, also the liquids provided with the meals are missed. You will be more alert, engaged and healthy if you eat breakfast and lunch. In addition you will be less likely to need a snack or drink in the late afternoon to make up for their food loss. Please adjust your activities accordingly.

**If students miss a meal due to lunch tutoring or other activities** please send them to the cafeteria before 1:45 PM for a snack. By eating meals at the correct times there will be less disruption and better use of time in class. Thanks for your efforts and support!
