Hispanic Heritage Month: Did you Know? The term Hispanic was first adopted by the United States government in the early 1970s, and has since been used in local and federal employment, mass media, academia, and business market research. It has been used in the U.S. Census since 1980. Because of the popularity of "Latino" in the western portion of the United States, the government adopted this term as well in 1997, and used it in the 2000 census. Source:
