The Rho Kappa Social Studies Honor Society presents This Day in History:

The Donner Party was a group of pioneers stranded in the Sierra Nevada Mountains for over 4 months. It was one of the last groups to leave Missouri on the "Oregon Trail." Upon reaching the mountains, they faced a severe winter. On this day in 1847, rescuers finally reached them. They discovered that the survivors resorted to cannibalism, taking advantage of those who were already dead and killing two more. Out of the 90 who began the journey, 48 survived.
